1. Product Overview

1.1 Introduction

Cervoz Industrial Half Slim Embedded Module S310 family is a Solid State Disk product that is in compliance with the SATA III standards. The device design is based on the 7pin for data segment and 15pin for power segment standards. The Half Slim Embedded Module S310 family fits in any 7+15 SATA sockets on a motherboard; it can be used for both booting or storage purposes.

S310 family uses superior quality, preselected single-level cell (SLC) NAND flash memory from the industry leading manufacturer Toshiba. This product includes both standard temperature range and wide temperature range options with various capacities to choose from.

S310 family offers outstanding performance and reliability, ideal for extreme applications in mission critical environments. Factory Automation, Transportation, Networking and Video Surveillance all benefit from this superior read/write endurance and data retention.
